Objective

Senior Product Designer with over 8 years of experience in user-centered design, specializing in web3, fintech and complex systems, seeks to leverage proven UX expertise to create meaningful, scalable financial solutions at Moniepoint.

Personal Data

Education

Undergraduate: Bachelor of Science (B.Sc.) Federal University of Technology Owerri, Owerri (2020)

Professional Experience

Moniepoint

Belonwus is a Lagos-based creative agency, operating across the spectrum of strategy and design, creating more new, less déjà vu.

April 2025 – Present

Senior Product Designer

Responsibilities

- Contribute to the design system: maintain consistency and scalability across all products by adhering to and enhancing the design system
- Create high-fidelity prototypes: design clear, interactive prototypes using Figma that effectively communicate design concepts
- Collaborate cross-functionally: partner with product managers, engineers, and stakeholders to align on goals and deliver seamless, scalable designs
- Apply design thinking: solve complex business challenges by iterating on designs based on research, feedback, and analytics
- Champion accessibility: ensure all designs meet accessibility standards, creating inclusive products for diverse users
- Bridges design and engineering by translating Figma specifications into pixel-accurate, accessible UI components
- Enforces visual consistency across light/dark/high-contrast color modes and multiple brand themes via CSS custom properties

- Authors Storybook documentation with 1:1 Figma frame replicas for design handoff and QA
- Reviews and debugs cross-platform rendering issues including typography metrics, icon sizing, and layout alignment
- Collaborates with designers on token naming, component API design, and design system governance

Belonwus
